

Assignment 1

BMI CALCULATOR

Jinish Patel | Asp.net | 01/06/2023

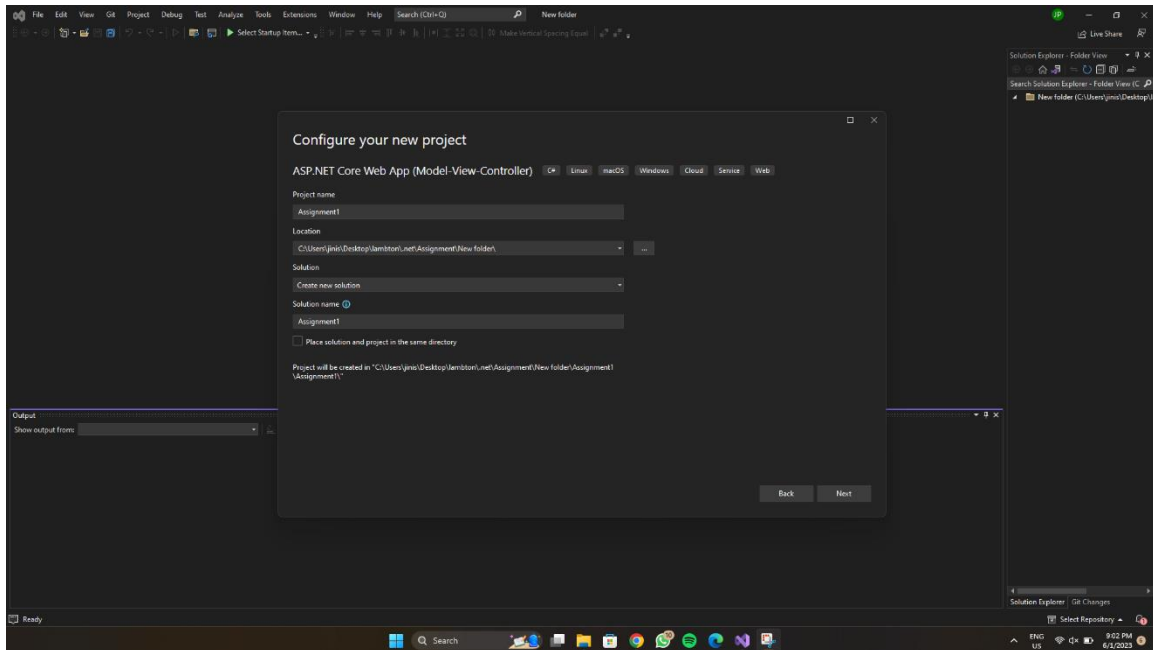

BMI Calculator:

Step 1: Creation of project with MVC.

Step 2:

Configure project as per directory and title.

Step 3:

Model

For main logic which is useful to get BMI calculations.

Code:

```
using Microsoft.AspNetCore.Mvc;
using System.ComponentModel.DataAnnotations;
namespace Assignment1.Models;

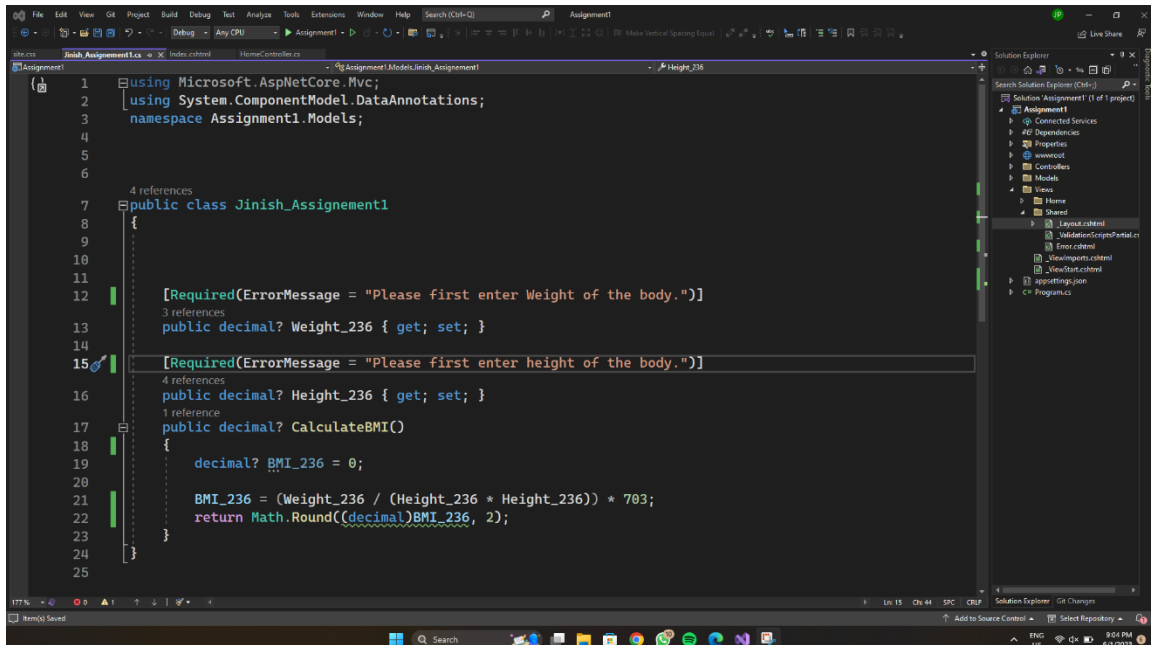

public class Jinish_Assignment1
{

    [Required(ErrorMessage = "Please first enter Weight of the body.")]
    public decimal? Weight_236 { get; set; }

    [Required(ErrorMessage = "Please first enter height of the body.")]
    public decimal? Height_236 { get; set; }
    public decimal? CalculateBMI()
    {
        decimal? BMI_236 = 0;

        BMI_236 = (Weight_236 / (Height_236 * Height_236)) * 703;
        return Math.Round((decimal)BMI_236, 2);
    }
}
```

Screenshot:

Controller:

Using controller to control which template will be used as GET request and POST request.

Code:

```
using Assignment1.Models;
using Microsoft.AspNetCore.Mvc;
using System.Diagnostics;

namespace Assignment1.Controllers
{
    public class HomeController : Controller
    {
        private readonly ILogger<HomeController> _logger;

        public HomeController(ILogger<HomeController> logger)
        {
            _logger = logger;
        }

        [HttpGet]

        public IActionResult Index()
        {
            ViewBag.BmiValue = 0;

            return View();
        }

        [HttpPost]

        public IActionResult Index(Jinish_Assignment1 model)
        {
            if (ModelState.IsValid)
            {
                ViewBag.BMI_236 = model.CalculateBMI();
            }
            else
            {
                ViewBag.BmiValue = 0;
            }
            return View(model);
        }
    }
}
```

Screenshot:

HTML file: Index.html

Code:

```
@model Jinish_Assignment1
@{
    ViewData["Title"] = "BMI Calculator";
}

<html>
<head>
<link href="~/css/site.css" rel="stylesheet" />
</head>
<body>
<h1 class="title" style='color:red'>@ViewBag.title</h1>
